*1: Long Reach Mode compatible.
 *2: TH-65SF2E, TH-65/55/49/43SF2W model only
 *3: The number of units that can be set as a group varies depending on the model. For details, see the Operation Manual of each model.
 *4: Some files cannot be played back even if they are in the supported format. Regarding restrictions, see the Operation Manual.
 *5: The playable application format, GUI, and operation procedure for the SQE1, CQE1 Series' Media Player function are different from other models.
 *6: Compatible with main software Ver. 3.0000 or later. For details, please contact your sales company.
 *7: Compatible with main software Ver. 2.2000 or later. For details, please contact your sales company.
 *8: Compatible with main software Ver. 4.0000 or later. For details, please contact your sales company.
 *9: When using the Screen Transfer software with a 98/86-inch display, the Software Main Version 4.0000 or later is required.
 *10: There are restrictions on the input signal and 4-Input Multi Display function. 3G-SDI input and 4K images are not supported by the 4-Input Multi Display function. For details, see the Operation Manual of each model.
 *11: Backup input only
 *12: The TH-55LFV8/49LF8 support only the Failover function. The switching time varies depending on the model and setting.
 *13: Motion smoother up to 60 Hz
 *14: Multi Dynamic Backlight
 *15: W model only
 *16: Local Dimming on LFV9/LFV8 Series is always set.
 *17: The part number suffix may differ depending on the license type. Multi Monitoring & Control Software Ver.2.0 or higher is required.
 Note: The specifications may vary depending on the model, even for the same function. For details, see the Operation Manual of each model.
